**Cost: \$60.00**

**Lunch included**

**THE ABC'S OF DOG BREEDING PROGRAM:**

The ABC's of Dog Breeding Home Study Program was developed to help fill the need for an affordable, easy-to-understand course of study on dog breeding, which is suitable for club structured breeder's education and appropriate for breeders of all breeds of dog. The goal of the ABC's of Dog Breeding is to take a practical, step-by-step-approach to the art and science of breeding.

The ABC's textbook outlines 7 key breeding tools and concepts, which include (1) genetics, (2) breeding systems, (3) pedigree, (4) selection, (5) anatomy, (6) kennel blindness and (7) genetic defects. In addition to discussing the basic rules of heredity, the ABC's of Dog Breeding also addresses many of the common misconceptions that have been handed down from dog breeder to dog breeder. The ABC's of Dog Breeding Home Study

Program includes a series of workbook exercises. Breeders who send in their completed exercises to the American Kennel club will receive a Certificate of Completion.

**The ABC's of Dog Breeding** seminar is an introduction to the topics that are covered in the home study program and explains many of the practical genetic breeding principles that can benefit breeders of all breeds of dogs. The ABC's of Dog Breeding seminar is easy to understand and fun to learn. The session will be followed by a hands-on workshop on how to determine shoulder angulation and placement.

**ABC's of Dog Breeding Home Study Book** (optional) \$25 (normal retail price is \$30 plus \$5 S & H). Books will not be available for purchase at seminar because of shipping weight – they must be pre-ordered.

\*\*\*\*\* Please Pre-register by April 1, 2010 \*\*\*\*\*

Pre-Registration Form

Name(s) \_\_\_\_\_
